Link Your Course to Panopto
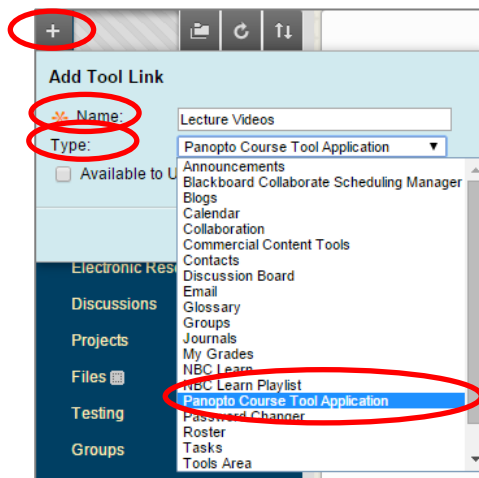

In order provide students with access to Panopto recordings, instructors need to link their Blackboard course to Panopto each semester.

Enable Panopto Tools in your Course

- Log into Blackboard at blackboard.gwu.edu and go to your course.
- Under Customization click Tool Availability.
- Place a check mark next to all the Panopto tools: Panopto Course Tool Application, Panopto Student Video Submission, Panopto Video Button, Panopto Video Embed and Panopto Video Link.
- Click Submit.

Create a menu item for your recordings

- On the main menu in the left sidebar, click the plus sign and then choose "Tool Link."
- Give your new item a name; here we used "Lecture Videos," (see figure below).
- Next to Type, click on the drop-down list.
- Click the Panopto Course Tool Application link from the list of tools and click Submit.
- Choose to make the item available to students, or not (you can also add links throughout the course).

Link your course to Panopto

- Click the menu item that you just created.
- Click the Configure button.
- On the screen that appears, click the Add Course to Panopto button.
- To accept Panopto into your course, click OK.

- A popup window will appear, (see figure below).
- Panopto calls courses "Folders." Under "Selected Folders," you should see your course listed.
- Click Submit
